

# AZTEC RITUALS TATTOO

## TATTOO AFTERCARE

- After 2-5 hours, remove the bandage gently with clean hands and wash with warm water and mild, fragrant free soap. DO NOT REBANDAGE.
- Apply a thin layer of product such as: Emu Tattoo (available for sale), Webber's vitamin E ointment, A&D Ointment, or the like multiple times a day to maintain moisture while still allowing skin to breathe. Continue until skin returns to its pre-tattoo condition.
- Stay out of sunlight and tanning booths until tattoo is healed.
- Do not soak tattoo in tub, sauna, Jacuzzi or go swimming while your new tattoo is healing. Showers are fine.
- Do not rub or pick the treated area while it is healing. Loss of color and/or infection could occur.
- Extreme sun and exposure over the years can and will fade your tattoo. This can be minimized by using a strong sunscreen, at least SPF25.
- Your tattoo should heal in 2 weeks. Consult a physician if any signs or symptoms develop such as the following: redness at site, green/yellow discharge (foul smelling) and/or fever.

Should you have any problems or questions, do not hesitate to call  
Aztec Rituals Tattoo at 514-723-2676.
